

Towable

Elevating

Carriage (TEC)

TEC-050

EZLIFT®

The E-Z LIFT Towable Elevating Carriage is designed to support a conveyor in an elevated position during operation. With the cranking of a hand winch, the TEC will raise a conveyor's discharge end up to a 40 degree incline.

Features Include:

- High strength steel frame
- Bridge to support conveyor during transport
- Brake hand winch, aircraft wire rope and pulleys hoist mechanism
- Safety chain
- 530 x 12 pneumatic tires and wheels on 96" span (12" wheel)
- Hitch assembly with coupler for 2" ball
- Operating, maintenance, and safety instructions

Options:

- V-belt Power Transfer for mounting a gas drive where it is accessible from ground (standard mount is at the top end)
- 15" wheels with pneumatic tires

Accessory:

- Tail-light assembly

Tail-light assembly
